

## Nassau Motor Co Ltd

WHERE STANDARDS ARE HIGHER!

Our motto refers to our conviction that integrity is the most important tool for success in any business.

And our mission is to provide top-quality products and efficient service at reasonable cost to the Bahamian customer.

We pride ourselves on corporate citizenship, and our managers are accessible to any customer at any time. We appreciate hearing from you.

As the full-service distributor for Honda and Chevrolet vehicles, and ACDelco parts, NMC is the leading automotive firm in the Bahamas.

Founded in 1940, the company has outgrown its premises several times. Today, we are one of the largest franchised auto dealers in the country, providing a full range of factory parts and service for all the models we sell at our Shirley Street locations.

# NASSAU MOTOR COMPANY LTD

## NEW CAR SALES

Our sales representatives are familiar with the full range of Chevrolet and Honda vehicles available to the Bahamian market.

## LEASED VEHICLES

We are the first Bahamian automotive firm to offer vehicle leasing. NMC Leasing offers a smart alternative to conventional auto financing for those who want all the pleasure of a new car with none of the ownership hassles.

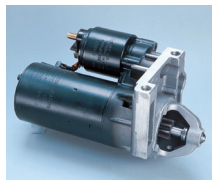

## USED CAR SALES

NMC offers a variety of used vehicles, including trade-ins and lease returns. After thorough inspection and servicing our "value rated" used vehicles carry a 30 to 90-day warranty to guarantee customer satisfaction.

## PARTS

The fact that we care about our customers explains why we have the most comprehensive range of genuine manufacturers' parts in the Bahamas for the vehicle makes and models we sell. And when something isn't in stock, we can have the item air-shipped immediately for Chevrolet and Honda vehicles.

We are also the exclusive retail and wholesale supplier in the Bahamas for ACDelco parts and accessories, including plugs, batteries, filters, shocks, struts, pumps, electrical and brake parts, carburetors, gauges, lamps, lubricants, seals, transmission parts, valves, cables, oils and transmission fluids.

## SERVICE

A customer should not have to purchase any expensive piece of machinery without the availability of replacement parts and maintenance service.

NMC has invested heavily in equipment and expertise for our service department, which offers the following:

- Air conditioning repair, maintenance and freon recovery
- Wheel alignment and balancing
- Electronic diagnosis and tune-up
- Automatic transmission overhauls
- Specialized tools and equipment
- Direct computer link to manufacturers

Our service technicians are factory-trained and their skills are constantly upgraded through manufacturer programmes.

We provide full two-year warranty servicing on all vehicles we sell as well as general repair and tune-ups for other models subject to parts availability and time.
